

Bruce Rosenberg

2569 Curriers PL

Education:

- University of Nevada, Las Vegas, Bachelor of Science in Management Information Systems
- SUNY @ Cobleskill, Associate of Science in Agronomy

Business Experience:

Over 30 years of system engineering and technical sales experience, enabling companies to achieve agility, efficiency and their financial goals by accelerating adoption of the latest compute and network technologies & services.

- Cisco Systems: Technical Solutions Architect
- Oracle: Principal Consultant
- EMC: Technology Consultant
- Network Appliance: Systems Engineer
- Sun Microsystems: Systems Engineer
- Electronic Data Systems (EDS): Systems Engineer

Four Seasons Community:

I have been a resident since January 2016. I recently finished renovating our home and now I'm anxious to start serving our community.

Volunteer Activities:

- Coached little league baseball
- Fundraising for Ovarian cancer research
- Fundraising for Alzheimer's disease research

Skills/Knowledge/Accomplishments

- Variety of computer and related technical skills and certifications
- 6 years of experience working in the trades which included finish carpentry, landscaping, irrigation/sprinkler systems, roofing, painting, etc. so that I could finance my education.

Statement:

Keeping our community active, financially stable, and retaining our market desirability are my primary goals. As a new member of the community, I think I can bring some fresh ideas while still respecting the traditions that have made this community so successful. In my professional career, I work with a variety of companies, including financial institutions, manufacturing, education, broadcast, and sports leagues. Their needs and challenges vary greatly. The skills needed to understand, analyze and resolve those challenges vary widely. As a board member, I will draw upon these skills to be a productive and trusted member of your Board of Trustees.
